

Expression of Interest in SAI Platform

Suggestions

- What ‘sustainability’ activities is your organisation already undertaking and where?
This can be supply, farm, processing or even research based
- What have you found to be the most challenging aspects of implementing the sustainability activities?
- Are there any sustainability related activities you are considering for future implementation through your organisation?
- What level of sustainability ‘support’ do you have in your organisation?
I.e. is it one person or a whole department?
- What is the level of sustainability understanding through the wider organisation?
- What are your organisational aspirations with regards sustainability?
- How do you see membership of the SAI platform benefiting your organisation and other members?
