

Welcome to Spotlight.

The online tool that drives collaboration and synergy of sustainable agriculture across global supply chains.

Members use Spotlight to highlight areas of mutual interest, identify key priorities for specific crops or geographies and connect with like-minded companies to maximize efficiencies in implementing sustainable practices that are locally relevant and globally significant.

1

INPUT

your interests:
commodity-specific,
regionally-important or
issues-based.

2

EXPLORE

others who share your
interests, concerns, and
connect to find
solutions.

3

BUILD

synergy and innovation
across global supply
chains, learning and
growing together.

Finding Friends

working with
members and
networks to solve
mutual problems

Sharing Knowledge

addressing
challenges and
creating solutions

Transforming Supply Chains

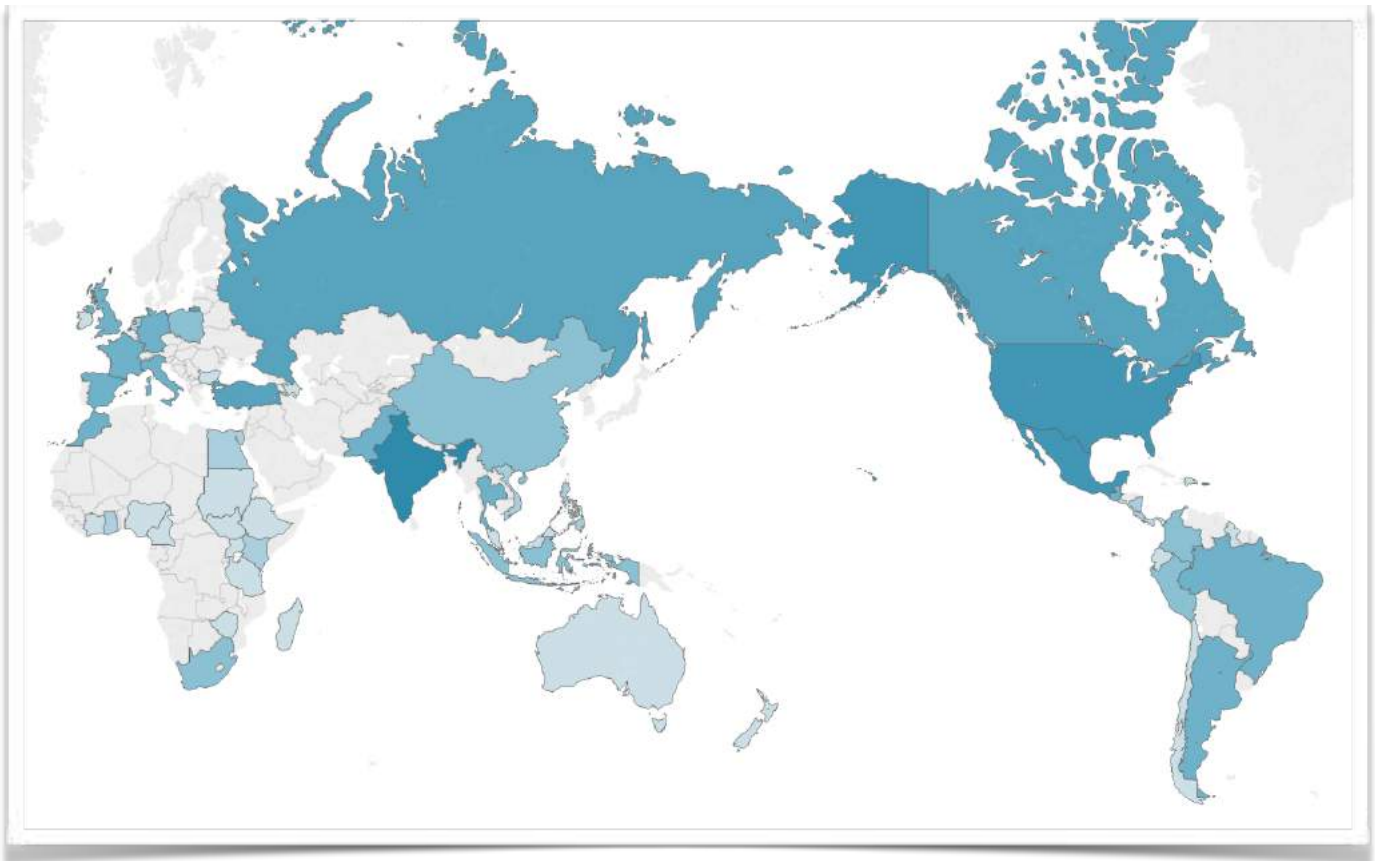

on-the-ground
projects with farmers
to retailers

“SAI Platform’s Spotlight will help generate further trust and transparency among the members. It will also help define a practical model for pre-competitive collaboration.”

Leon Mol
Director of Product Safety & Social Compliance
Ahold Delhaize

“With Spotlight, we have a fantastic tool to help members identify areas for collaboration so that together we can drive greater collaborative impact on initiatives and shared challenges.”

Joe Maguire
Head of Sustainable Sourcing
Diageo
